

ONGO®YOU - YOUNG AND INDIVIDUAL

The problem of too much sitting starts at an early age. The solution is active sitting with ONGO®. Attractive for the young generation: simple, cost-effective and individual. The foot with its curved base is constructed of sustainable pressed-wood. The seat offers an extensive selection of colorful covers. This makes the ONGO®You perfect to start active sitting from the student desk to the entrepreneurial startup.

The height can be adjusted thanks to an anti-twist gas spring into two height ranges (regular and tall). The foot has a diameter of 39 cm (15 in.) and has to prevent slipping a PUR-foam. To save precious resources for the packaging, ONGO®You comes delivered in three parts: Simply stick them into one another and secure with two cone connections.

The high quality craftsmanship that has gone into making ONGO®You and its timeless form means the highest requirements for sustainability have been met. Like all ONGO® products ONGO®You also contributes to a positive environmental footprint by being made in Germany

PRODUCT INFORMATION

- Round, curved seat: ø 35 cm (13.77 in.)
- Height-adjustable through gas spring: regular 47-67 cm (18.5-26.38 in.), tall 55-80 cm (21.6-31.5 in.)
- Base ø 39 cm (15.35 in.) pressed wood
- Shaft black
- Lightweight: approx. 5.2 kg (11.46 lbs.)
- Made in Germany
- 3-year warranty

MATERIAL

- Seat cover: knitted microfiber
97% polyester and 3% elastane knitted to shape, Oeko-Tex 100 standard, color fastness in accordance with automotive standard, 40,000 abrasion-resistance test cycles
- Seat foam: CFC-free polyurethane foam
- Seat carrier: glass-fiber-reinforced polyamide
- Height adjustment ring: glass-fiber-reinforced polyamide
- Cone holder at the bottom: aluminum
- Gas spring: steel/plastic
- Foot: wooden core
- Surface of foot bottom: CFC-free integral foam
