DUNES®

Anthrazite 21003

Grey 21007

Racing Green 21005

Dark Brown 21001

Rust 21002

Camel 21004

Cognac 21000

The DUNES® collection has received the Nordic Swan Ecolabel. A highly respected certification verifying that it meets a rigorous set of requirements in regards to environment, use of energy and resources. Run your fingers along the surface of DUNES® and it feels as smooth as butter. The treatment process involving sanding, buffing and application of a custom oil to the surface gives it a velvety touch with a sublime tactile feel. DUNES® boasts a matt look that's raw and natural featuring subtle, natural markings which makes each hide unique. The colors will vary from hide to hide. As a result of the leather's exposure to daylight, interior lighting and usage, a patina will develop, and the surface will become smoother and shinier over time.

Type

Aniline leather

Thickness

1.1 - 1.3 mm

Size

4.5 - 5.5 m²

Origin

European rawhide, from Italy, Germany, Austria, Switzerland and Scandinavia

Finish

Leather oil to enhance the body

Tannage

Chrome-free

Dye

Water-based aniline dye

Surface

An elegant, matt surface with a velvety look and feel

NOIR[®]

Black 31320

Royal 31326

Green 31327

Red 31324

Tobacco 31328

Cognac 31322

Nature 31323

NOIR is one of those leathers that stirs the emotions even before you touch it. Come closer and you can see the lovely, natural irregular marking from the rawhide. Run your fingers across the surface and feel the smooth texture of the natural grain. As a Semi-Aniline leather, NOIR has a special light finish that protects it from dirt, the effects of light and the harmful rays of the sun. The surface has a slightly more uniform look than Aniline leather, but the natural grain is still visible, adding to its authenticity and originality. NOIR is soft, flexible and comfortable, making it an exceptional choice for furniture.

Type

Semi-Aniline leather

Thickness

1.0 - 1.2 mm

Size

5.0 - 6.0 m²

Origin

European rawhide, from Italy, Germany, Austria, Switzerland and Scandinavia

Finish

Light surface protection

Tannage

Chrome

Dye

Water-based aniline dye

Surface

Matt, soft with slight texture

CARE INSTRUCTIONS

As a natural material, leather requires looking after. If cared for in the right way, it will become even more beautiful over time. Our leather is ready for you to use as soon as it arrives, so there is no initial need to treat it. The care and maintenance of leather will always depend on the specific way in which it is used, the conditions of use and how often it is used.

DUNES®

Dunes is an aniline leather. Use a vacuum cleaner with a soft brush once or twice a month to remove any excess dust. Never use soap or water, as this will cause the characteristic velvety look and feel to disappear. Do not apply leather grease or soak the leather.

Avoid any chemical products, such as saddle soap, other leather cleaners or household products. Protect from direct sunlight, excessive heat and sharp objects.

Natural marks such as insect bites, scars, wrinkles, hair whirls, or slight variations from one hide to another are typical characteristics you can expect. A patina will appear as a result of use and the leather will become smoother and shinier over time.

NOIR®

Noir is a semi-aniline leather. Use a vacuum cleaner with a soft brush once or twice a month to remove any excess dust. Once or twice a year for thorough cleaning or for spot removal, use the foam from soap flakes stirred in warm water. Apply the foam with a dry soft cloth, minimizing any contact with water.

Avoid bar soap, saddle soap, leather cleaners, household detergents or chemical products. Protect from direct sunlight, excessive heat and sharp objects.
