

THATSIT

Total support – unlimited movement

Design: Peter Opsvik

Concept

Vary your position by placing your lower leg on, in front of, between, or beside the kneepads

Your body moves in response to the chair's tilting motion

Your spine is perfectly supported

The open angle between your upper and lower body aids blood circulation

Category

Variation makes life exciting. On a Varier kneeling chair, your body is constantly in motion. Place your knees on, in front of, between or beside the shin pads to vary your sitting angle and posture, and find the ideal balance point for your body. Have you noticed that all of the seats on our kneeling chairs lean downward? This tilts the pelvis forward and puts the spine in the same position as when you are standing. This means no pressure on spinal discs and relief from shoulder and back tensions. Just remember to place your weight on your bottom when sitting, and on your shins when varying your positions. You'll never want to go back to your old way of sitting.

Healthy sitting

- Follows the natural body movement
- Promotes natural, upright posture
- Prevents tension in neck and shoulders
- Strengthens core and abdominal muscles
- Enhances deep breathing
- Improves concentration through increased blood circulation and oxygen supply
- Energizes and combats tiredness
- Reduces pressure on vertebral discs

varier®

Benefits

Developed for movement and variation

- Remain concentrated
- The muscles are stimulated - no wear and tear of static sitting

Runners

- Follow movements of the body and encourage active sitting positions
- The body will find its own natural balance
- Stimulates dynamic and active sitting positions
- Can function as support for the feet

Separate, adjustable leg cushions (balance concept = runners + tilted seat + leg cushions)

- Prevent sliding forwards
- Support for the legs/feet
- Accessible
- Different sitting positions, leaning forwards with legs on cushions, central position with feet placed on runners or floor, one foot on floor – one on leg cushion and leaning backwards

Tilted seat

- Sitting positions with a natural open angle between thigh and torso
- Makes breathing easier
- Healthy lifestyle

No sharp edges

- Comfortable to find individual sitting positions
- Comfortable in use

Open construction

- Freedom for movement
- Freedom for variation
- Air to the body
- Easy to clean – no dust and litter between back and seat

Simple construction

- Easy to assemble
- Few parts

Available with or without back rest

- Freedom to choose according to personal need/taste

No back rest

- Takes small space
- Easy to transport from one room to another
- Easy to clean
- Fits effortlessly under the desk
- Easy to fit into existing interior

On the market for more than 20 years

- Does not follow trends
- Timeless
- Safety
- Well known and accepted concept

Extra: Soft-tape

- Added protection for wood floors
- More comfort on tiled floors

Design Peter Opsvik

- Classical and functional
- Designed to rise the user's wellness

Features

Floor Protection

- Protect the floor
- Stability

Steel tube in seat and back

- Strength
- Stability
- Better utilization of foam

Base made in laminated wood with a core in beech, and top laminate in ash

- Environmentally friendly
- Strong construction, long lasting
- Natural materials

Tested according to European standard for Non-Domestic Use NS-EN 16139 2013
